Free type beat 2022 – Burned heart

No Turning back
Turning back in 2019
I wish for better days
Like cherry on a sundae
I'm only sixteen
My heart's been broken
So many times
So many lies
I can remember
But lady is no turning back
I've been stabbed in the back
I was dead inside

But now baby girl
I don't want to choose a side
Don't want to lose
Please wait baby girl
I just want you to be cool
You know I've been fooled

But all the games
You play
I wish for better days
I can't call names
For all this pain
And I let my tears rain
I Smoke my pain
With my friend
I don't want this to end 2x
Like I said
I smoke my pain
That smells like dead
I want this to end

But I can't be dead
You're the voice in my head
And you said I got braindead
I'm tired to be alone
I want you at my home

But now baby girl
I don't want to choose a side
Don't want to lose
Please wait baby girl
I just want you to be cool
You know I've been fooled
