

# Take a plane to the outside

Take a plane to the outside  
The sky is nostalgic  
With tears, let go the past  
And listen to the music

Take a plane to the outside  
Go to different places  
When the day seems so sad  
Cause yesterday erases

**And cry sad songs**  
**The glass window shows my profile**  
**Can't wait that long**  
**I rub shoulders with passersby**  
**And use some words**  
**Hand writes midnight, the lonely smile**  
**Flying like birds**  
**I'm tired, but I just can't close my eyes**

Take a plane to the outside  
Travel between countries  
With too many tears to hide  
You're feeding so many seas

Take a plane to the outside  
It's always a new start  
Never take away your pride  
Just follow what's in your heart

**And cry sad songs**  
**The glass window shows my profile**  
**Can't wait that long**  
**I rub shoulders with passersby**  
**And use some words**  
**Hand writes midnight, the lonely smile**  
**Flying like birds**

**I'm tired, but I just can't close my eyes**

*Seems like I forgot*  
*Didn't say goodbye*  
*Let loneliness go further*  
*We never know why*  
*It seems like we forgot*  
*No need to say goodbyes*  
*Loneliness goes further*  
*So, let loneliness fly*

**And cry sad songs**  
**The glass window shows my profile**  
**Can't wait that long**  
**I rub shoulders with passersby**  
**And use some words**  
**Hand writes midnight, the lonely smile**  
**Flying like birds**  
**I'm tired, but I just can't close my eyes**

**And cry sad songs**  
**The glass window shows my profile**  
**Can't wait that long**  
**I rub shoulders with passersby**  
**And use some words**  
**Hand writes midnight, the lonely smile**  
**Flying like birds**  
**I'm tired, but I just can't close my eyes**
