

Your best feature

Auteur et Interprète : Tristan Allaire

Life is a lonely dream
Just like a sad story
Filled with problems and screams
Filled with dark mystery

You need to try alone
And teach you to improve
If you stand by your own
You can predict your moves

*No matter how deep they can make you fall
Be yourself and, please, don't listen to all*

**Do what you like
It will be okay
There's obstacles to cross
The decisions you're making today
Will guide you if you're lost
Take what you need
And you'll find your way
Cause you're the only one
Who can choose what's in your future
And your talent will be your best feature**

All those who left your hand
Who can't see what you are
They'll never understand
Inside you, there's a star

So they want to drag you down
Cause they can't see further
So just pull up your crown
Get up and be stronger

*No matter how deep they can make you fall
Be yourself and, please, don't listen to all*

**Do what you like
It will be okay
There's obstacles to cross
The decisions you're making today
Will guide you if you're lost
Take what you need
And you'll find your way
Cause you're the only one
Who can choose what's in your future
And your talent will be your best feature**

*Do what it takes to go forward
And never forget who you are
So, every time you'll be cornered
Remember, your wounds are now scars*

**Do what you like
It will be okay
There's obstacles to cross
The decisions you're making today
Will guide you if you're lost
Take what you need
And you'll find your way
Cause you're the only one
Who can choose what's in your future
With your talent**

**Just do what you like
It will be okay
There're obstacles to cross
The decisions you're making today
Will guide you if you're lost
Take what you need
And you'll find your way
Cause you're the only one
Who can choose what's in your future
And your talent will be your best feature**
